

HUTA ŁABĘDY S.A.

WĘGLOKOKS CORPORATE GROUP

Quality Policy

HUTA ŁABĘDY S.A. has a significant position on the domestic and foreign market of producers of steel products for mining, construction and energy.

Our goal is to maintain our leadership by offering top quality products featuring durability and safety based on in-depth understanding of requirements of our Clients, experience of our staff and innovative technologies.

We operate within a framework of our ISO 9001 Quality Management System and API Q1 Specifications. We have implemented these solutions and we continue to improve them to ensure that our Clients are always satisfied.

We meet the guidelines of our Quality Policy through:

- extending the scope of our business to be able to offer comprehensive services,
- development of production technology in order to ensure and provide the highest quality of executed orders,
- ensuring high-quality production materials and appropriate quality of production equipment in order to meet the Customer's quality requirements,
- caring out our processes in carefully planned and monitored conditions and we focus on achieving both our Clients' and our own quality targets,
- training our personnel to ensure they are up to date with their skills and we motivate them to work for quality.

We hold each member of our staff responsible and accountable for quality by following a well-designed system for assignment of tasks and authorizations.

The President of the Board of Directors of HUTA ŁABĘDY S.A. has the primary responsibility for establishing, implementing, maintaining, reviewing and financing our Quality Policy.
